

Net Mode: 1232* to start, 1233* to end

Calling the KARC/BMRC Sunday evening 2 meter net. This is (your call); my name is (your name) and I'll be your net control station this evening. This net is held every Sunday evening at 8:30 local time on the 146.970 W4TRC repeater to handle formal or informal traffic and to exchange information and ideas.

At this time is there any emergency or priority traffic to come before the net?

All stations checking in will need to give your call sign followed by your name, and indicate whether or not you are an ARES member. If you are an ARES member, indicate whether you are on commercial power or battery power.

I'll first ask for check-ins from those who have announcements to put before the net. Announcements can include information regarding club news and activities, general amateur radio announcements, quick informals, local test sessions, area swap meets, and hamfest listings.

Stations with traffic, messages, or announcements please call net control now.

(Take check-ins from those with announcements....)

We'll come back for the announcements in just a few minutes after we log some check-ins. Stations checking in will be given an opportunity to make comments to the net. If you don't wish to make a comment please indicate so when you check in by saying "no comment" or "no traffic". This is (call sign) net control now taking check-ins from any station. Call, name, and ARES information please.

(Acknowledge check-ins; welcome them to the net)

(Make announcements)

(Run thru list of check-ins for comments)

(Ask for late check-ins; acknowledge & welcome, take comments)

We've now come to the swap shop portion of the net....if you have any amateur-related items you'd like to sell or trade, or if you're looking for

something specific now's the time to let us all know. Any station with items for our swap shop segment please call now.

(Take any listings now & allow time for replies)

It's time now for the Hams Helping Hams portion of the net.....maybe you have an antenna project planned and need help or you have a radio-related problem you can't seem to solve that you need help with. Whatever it is, here's where you can ask for help. Does anyone have anything they'd like to put before Hams Helping Hams? Please call now.....

(Take any listings now & allow time for replies Once contact is made, have them move off-net or wait till the end of the net to discuss their issue.)

Are there any other announcements or comments for the net or is there any further business to come before the net?

(Respond as necessary)

One last call for check-ins.....

(Respond as necessary)

With no further business to come before the KARC/BMRC weekly net, I'd like to thank all those who participated as well as those who stood by while the net was in session.

This is (call sign) returning the W4TRC repeater to normal amateur use. 73 and good night.
